It's for Charity – Mate !

It's been just 3 months since MULT-HY launched its range of hydraulic torque wrenches direct to the North and North West of the U.K. And what a 3 months ! Thank you to all of you who have shown interest in our range of tools. Thank you to all of you who have requested to see the tools in action.

And finally – thank you to all of you who have entrusted your hydraulic torque tool requirements to MULT-HY.

However, we're now hungry for more and this is where you come in **and** how we can say Thank You, to you, in a more tangible form and in a form which benefits the community in which we operate. You have seen what we have to offer.

You may know of other companies, or factories, or individuals who you think might be interested in the MULT-HY range of hy-

Graeme Cook – "we want to say Thank You in a form which benefits the community"

draulic torque wrenches and associated equipment. We're asking you to provide us with contact details for these companies, or factories, or individuals, to enable us to send an information pack. In return, for every product sale that takes place between now and 30th June 2001 to any client introduced in this way, then we will send a cheque, to the introducer, for a sum equivalent to 2% of the product sale amount, made

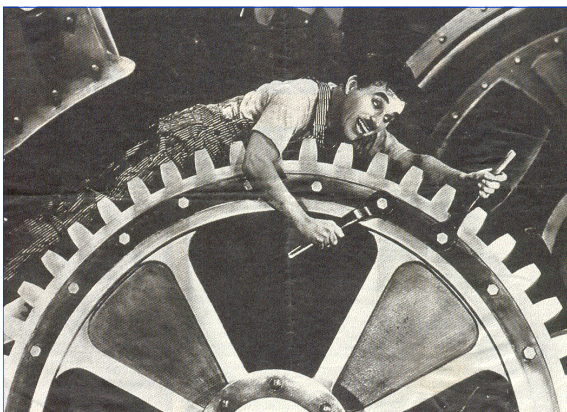

payable to a charity of their choice.

Simply fill in the details overleaf and fax back to us on 01282 712340. We will confirm receipt of your advice by return telephone call.

No ifs, no buts. We will pay 2% of all/any sale value to a charity of your choice, even if we had known that client prior to your own introduction.

There are no restrictions on the number of introductions you can provide. Nor are there any restrictions on the number of sales or the amount of such sales. So then, don't forget that

**It's for Charity – Mate !
(and we're Torque'in
about it)**

Charlie's Angels ?

Hello, my name's Charlie. Once upon a time, there were three little girls and..... Oops, sorry, wrong analogy ! With "hands free" remote operation and the ability to run up to four tools off the one hydraulic pump, you can bet that Charlie would have completed this job much quicker, much safer and with better than +/- 3% torque accuracy had he been using MULT-HY hydraulic torque wrenches. Could you do with an Angel ? Then **Torque Talk** to MULT-HY today.

Dear Customer,

Thank you for your interest in Mult-Hy and its product range. We're hoping to really push the Mult-Hy name into the market place over the next few months. If we can count on your help, by introducing potential new client names, then we will recognise any resultant sales (to 30 June) by issuing a cheque, for 2% of the sale value, to a charity of your choice. Just fill in the details below.

Graeme Cook

MULT-HY in Action

Left – our unique Uni-Tool, an all-in-one pump and tool. The model shown weighs 12 lbs. and will deliver up to 1,200 ft.lbs of torque.

Right – one of our low clearance wrenches. Note its obvious light weight and simple one-man operation. The model shown weighs 5.2 lbs. and will deliver

The MULT-HY Promise

- **Free** user-training or first use supervision upon receipt of merchandise
- **Free** semi-annual user-training on customer's request
- **Free** annual safety seminar on customer's request
- **Free** supply of loaner tools in case of product failure under warranty
- **Free** bolting consultation
- **Free** annual inspection on customer's request

All of the above is supported by MULT-HY's **12-month no-quibble guarantee**. If it breaks, we will replace it quickly, free of charge (including cost of carriage) and with no questions asked. Once a MULT-HY customer, always a MULT-HY customer. You will not get better (or equivalent) service anywhere. **And that's a promise !**
